Republic Services

8364 Clairemont Mesa Blvd.

San Diego, CA 92111

To whom it concerns,

This is an official notification regarding the waste services provided to residents in the Mesa Village HOA community. Pickup days for trash, recycling, and organics are being adjusted in Mesa Village HOA's area to align waste service pickups on the same day. With more communities sharing the same service day, it will create a more efficient pickup schedule with the goal of reducing missed pickups and providing an improved customer experience. **Beginning the week of May 15th, Mesa Village HOA waste collection will occur on Mondays.**

Please ensure that trash, recycling, and organics carts are placed at their designated pickup area for service on Mondays starting May 15th. The Republic Services operations team will conduct additional pickups the following two Tuesdays (May 16th and May 23rd) upon the start date of Monday pickups. This measure will be taken to make the transition easier for the community and accommodate residents who did not set out their carts on Monday.

If you have any questions or concerns regarding the waste service day change, please contact 619-421-9400.

Sincerely,

Amanda Smith

Territory Executive, HOA Representative
